

## UNIVERSITY OF WASHINGTON GUIDANCE FOR SUBMISSION OF COVID-19 SYMPTOM ATTESTATION FORM

*February 24, 2022*

The University of Washington no longer requires University personnel in health care settings (and non-healthcare settings) to submit daily COVID-19 symptom attestation forms.

However, all University personnel and students continue to be required to self-monitor for [COVID-19 symptoms](#) prior to arriving at a University location, and must stay home (or go home) if they are experiencing symptoms of COVID-19, regardless of their vaccination status. This requirement for self-monitoring for symptoms including requirements to take if symptoms are experienced are outlined in the University's [COVID-19 Prevention Plan](#).
